Re: Proposed annexation
to the City of Glendora,
"Southerly Annexation
District No. 14"

Dear Sir:

At the meeting held on February 23, 1956, the County Boundary Commission reviewed the boundary description and map submitted on February 14, 1956 by you for the above proposed annexation to the City of Glendora.

Although the boundaries submitted do not create islands or corridors of unincorporated territory, and conform with lines of assessment as nearly as practicable, the County Engineer called to the attention of the Commission that certain minor changes were desirable to clarify and perfect some of the references required to provide the definiteness and certainty intended under provisions of Section 35002 of the Government Code. Said revisions would make no change in the location of the boundaries shown on your map.

The County Boundary Commission approved the boundary description submitted by you and the alternate description recommended by the County Engineer and respectfully suggests the alternate description be used in all proceedings relating to the proposed annexation.

Very truly yours,

Attention: Mr. J.S. Allison, Secretary

Dear Sir:

SUBJECT: City of Glendora - Annexation
"Southerly Annexation District No. 14"

Pursuant to your requests of February 3 and February 14, regarding the proposed "Southerly Annexation District No. 14" to the City of Glendora, we have reviewed the legal descriptions of the boundaries submitted by the City, and have found that while the description first submitted was so in error as to be meaningless, the second description submitted can be approved by the Commission as to definiteness and certainty in accordance with Section 35002 of the Government Code, although certain minor changes are desirable to clarify and perfect some of the references.

Therefore, we have prepared the enclosed revised description of boundaries, which we recommend that the Commission approve as an alternate recommended description and forward to the City.

The boundaries of this proposed annexation do not create islands or corridors of unincorporated territory, and do conform with lines of assessment.

A map showing other boundaries in relation to the boundaries of this proposed annexation, and all original papers regarding this matter are enclosed.
